Attention Residents: Northwest Place (West Grant Dr to West Villa Dr)

Reference: 2016 Capital Improvement Project – Street and Utility Improvements
2016 CONTRACT A
Storm Sewer Installation

Date: June 10, 2016

Dear Resident:

The storm sewer work on Northwest Place will begin on Monday, June 13.

The storm sewer pipe will be installed in the street on the east side of Northwest Place. The contractor will begin with a connection at the intersection of Northwest and West Grant, and proceed to the south to West Villa. It is anticipated this phase work will take approximately 5 days.

Note that all work is weather dependent and unknown utility conflicts may cause delays.

The storm sewer installation operation typically involves working on a small area at a time, excavating ahead of the pipe installation, installing the pipe, then backfilling the area. The contractor anticipates installing approximately 100 to 200 feet of pipe per day.

The street and your driveway may have limited access during working hours. Your street and driveway will be accessible after working hours. Working hours are from 7:00am to 6:00pm, Monday through Friday. Whenever possible, please try to limit your trips through the work zone during working hours.

The intersection at Northwest and West Villa may be closed to all traffic for long periods of time in order to construct the storm sewer and make necessary connections at this intersection.

Please do not park on the street during working hours.

Your patience and cooperation are greatly appreciated during construction.

If you have questions or concerns about this project, please contact me at **(847) 391-5388 or bshipp@desplaines.org**. If I am not available, please leave a message and I will return your call as soon as possible.

Sincerely,

Becka Shipp, P.E.
Resident Engineer, City of Des Plaines
