Attention Residents: Good Avenue (Ballard to Suffield)

Reference: 2016 Capital Improvement Project – Street and Utility Improvements
2016 CONTRACT A
Storm Sewer Installation

Date: August 19, 2016

Dear Resident:

The storm sewer work on Good Avenue will begin on Monday, August 22.

A new storm sewer pipe will be installed between Suffield and Ballard primarily in the west parkway. The contractor will begin with a connection to the existing storm sewer at Good and Suffield, and proceed to the south to Ballard. It is anticipated this phase work will take approximately 5 days.

Note that all work is weather dependent and unknown utility conflicts may cause delays.

The storm sewer installation operation typically involves working on a small area at a time, excavating ahead of the pipe installation, installing the pipe, then backfilling the area. The contractor anticipates installing approximately 100 to 200 feet of pipe per day.

The street and your driveway may have limited access during working hours. Your street and driveway will be accessible after working hours. Working hours are from 7:00am to 6:00pm, Monday through Friday. Whenever possible, please try to limit your trips through the work zone during working hours.

Please do not park on the street during working hours.

Your patience and cooperation are greatly appreciated during construction.

If you have questions or concerns about this project, please contact me at **(847) 391-5388** or **bshipp@desplaines.org**. If I am not available, please leave a message and I will return your call as soon as possible.

Sincerely,

A handwritten signature in black ink, appearing to read 'BS', with a long horizontal flourish extending to the right.

Becka Shipp, P.E.
Resident Engineer, City of Des Plaines
